Our furniture is made in compliance with the following regulations:

UNI EN 14749

The standard specifies the safety requirements and test methods for the structures of all types of domestic, kitchen and bathroom storage furniture and their components.

ASTM F2057-19

Standard Safety Specification for Clothing Storage Units

This safety specification is intended to reduce injuries and deaths of children from hazards associated with tip over of clothing storage units, it covers chests, drawer chests, chests of drawers, dressers, and bureaus only.

The procedures for stability testing of the drawer are presented in details. During the test, the unit shall not tip over or be supported only by an opened drawer, opened door, or opened or unopened flap.

WARNING
